1. INDUSTRY STRUCTURE AND DEVELOPMENT:

ALUMINIUM FOIL:- There are around 10 Major Aluminum Foil manufacturers in India with rolling capacity of around 10000 tons per month to cater the total demand of around 12000 tons per month in different field of pharmaceuticals and flexible packaging industries. In the present scenario, market demand of the product is growing with a rate of 14.5% per annum. During the financial year 2015-16 AMCO's share in market has dropped drastically due to stiff competition in the market.

PVC FILMS & SHEETINGS:- There are around 15 PVC Films & Sheeting's manufacturers in India. Demand for PVC Films & Sheetings is increasing with a rate of 20% p.a. approx. In our company there is no direct export of PVC Films & Sheeting's.

2. OPPORTUNITIES & THREATS, RISKS & CONCERNS:

ALUMINIUM FOIL:- India is a known to be a growing market for Aluminium Foil industry. High cost of production, slower machinery can become a threat for the industry. But on focusing the present scenario, it can very well be seen that it was the entry of some large scale industries of Aluminium foils which spoiled the market by creating abundance of supplies with no increase in the actual demand of the products.

PVC FILMS & SHEETINGS:- There is a growing market for PVC Films & Sheetings and Laminated Sheetings as it is used in different types of Industries such as electric tape, stationery, luggage, school belts for children, advertising banners, photographic albums, plastic panels for exhibitions and automobiles. The present threat we are getting is from Extrusion Process Industry. It comes under small scale industry in which they use low value machinery and produce poor quality PVC products.

Further, more and more plain and printed PVC Sheetings & clear printed material is coming to India from China.

3. COMPANY'S PERFORMANCE (PRODUCT WISE):

DOMESTIC BUSINESS REVIEW:

PVC FILMS & SHEETINGS:- The Company has executed volume orders for the top Industries such as Auto Fit Pvt. Ltd., Meenakshi Polymers Pvt. Ltd., Bombay Plastic House etc. The domestic sale of the PVC Films & Sheetings has decreased as compared to the previous year. Further, our laminated leather cloth is much in demand. Being a petroleum product, use of PVC resin, few plastic polymers, D.O.P, the increase in price has made a heavy impact on cost of our quality products.

EXPORTS:

In case of Aluminium Foil, the company's exports have increased during the year under review as compared to the previous financial year. The continued strength of the US Dollar against Rupee did have its consequential impact on the outgo of foreign currency from India.

China, Greece, Jordan, Morocco, and Turkey are considered the highest potential markets in the coming years. It also has potential to replace many non biodegradable products like Polyester, LD, HD, etc. Aluminium Foil is mainly used and preferred in packaging particularly in Pharmaceutical Industry. 50% of total capacity is consumed in this field. This product of company has wide applications in various areas, such as flexible packaging, food, chemical industry and Pharma sector. In Packaging industry, aluminum foil is gradually replacing polyester and other barrier films because aluminum foil have better barrier properties than others. Our market share in Aluminium industry is negligible, but we have plans to consolidate our position in next two years as one of the top few companies, catering to the packaging needs of Pharma Companies. ANNEXURE - B TO INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Amco India Limited ("the Company") as of 31st March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal

Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

L) SEGMENT REPORTING:

Segment revenue, results, assets and liabilities have been identified to represent segments on the basis of their relationship to the operating activities of the segment.

M) EARNINGS PER SHARE (EPS)

The earnings considered in ascertaining the company's Earning per Share ('EPS') comprises the net profit after tax. The number of shares used in computing the basic EPS is the weighted average number of shares outstanding during the year. The diluted EPS is calculated on the same basis as basic EPS, after adjusting for the effects of potential dilutive equity shares.

N) TAX EXPENSE:

CURRENT TAX :

Tax on income for the current year is determined as per the provisions of the Income Tax Act, 1961.

DEFERRED TAX

Deferred tax is recognized on timing differences between the accounting income and the taxable income for the year and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date. Deferred tax Assets are recognized and carried forward to the extent that there is a reasonable certainty of realization, however in Case of unabsorbed tax losses and tax Depreciation are recognized only when there is a virtual certainty of their realization.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The company writes down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

O) IMPAIRMENT OF ASSETS:

Assets that are subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the assets' carrying amount exceeds its recoverable amount. The recoverable amount is the higher of the assets' fair value less costs to sell and value in use.

P) PROVISIONS AND CONTINGENT LIABILITIES:

Provisions are recognized when the company has a present obligation as a result of past events, for which it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made. When the company expects a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when reimbursement is virtually certain.

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably will not, require an outflow of resources. When there is a possible or a present obligation the likelihood of outflow of resources is remote, no provision or disclosure is made.
